Index to Volume II—Subjects

Absenteeism in an industrial plant due to alcoholism. 661
Absorption of ethyl alcohol from the gastro-intestinal tract as a diffusion process, the,* 416
—— —— glucose, the influence of alcohol on the emptying time of the stomach and the, 271
Abstract archive of the Quarterly Journal of Studies on Alcohol, the, 216, 408
Acquired tolerance to ethyl alcohol. 453
"Adaptation" of the central nervous system to varying concentrations of alcohol in the blood. 35
Alcohol addiction and its treatment. 98
—— —— —— —— ——, an early medical view of, Dr. Thomas Trotter's "Essay, medical, philosophical and chemical, on drunkenness." 584
—— ——, some suggestions in the control and management of drug and,* 848
—— ——, the treatment of, a review of the literature. 717
—— and epilepsy. 1
—— content of body fluids and tissues with their physiological and medicolegal significance, a critical survey of various chemical methods for determining the, 512
—— —— —— the blood, on the influence of injections of calcium salts and alkaline phosphate solutions on the,* 223
—— damage in Switzerland, decrease of,* 424
—— gelation of serum, studies on,* 610
—— of the lung air as an index of alcohol in the blood, the,* 609
—— poisoning in Switzerland, acute,* 229
—— problem, penal and correctional aspects of the, 241
—— problem, the: possible lines of useful research. 672
——, science, adults; a bulletin for use by adult groups.† 623
—— susceptibility skin test, the,* 417
Alcoholic beverages, federal and interstate regulation of, 816
—— ——, a proposal for changes in present methods of sale of, to conform with the Federal Food, Drug and Cosmetic Act.* 848
—— mental disease.* 841
—— —— disorders. 312
—— patient, the; a problem that cannot be ignored by the medical profession.* 846
—— pellagra psychosis.* 226
—— polyneuritis.* 226
—— ——. An evaluation of the treatment at the Boston City Hospital from 1920 through 1938.* 419
—— problem, a highly successful approach to the,* 620
—— psychosis.* 839
Alcoholics anonymous.* 619
——, chronic, a post-repeal study of 300,* 843
—— in the canton of Vaud, the internment of,* 621
Alcoholism.* 232, 621
——, a factor in degeneration.* 619
—— —a medicolegal survey.* 849
——: a public health problem.* 846
—— and crime. 686
—— —— its role in internal pathology.† 428
—— —— mental disease; psychiatric resultants of alcoholism. 293
—— —— —— disorders in the Department of Morbihau.* 424
—— —— the alcoholic.* 425
—— —— —— family.* 620
—— —— —— use of drugs. 496
—— as a cause of elimination from army service, the importance of,* 230
—— —— —— dysgenic factor.* 622
—— —— —— factor in unfitness for military service, the importance of,* 230
—— —— —— neurosis.* 841
—— at the Boston City Hospital. 18
——, chronic: a psychological survey. 12
——, ——, and suicide; a contribution to Bandel's theory on the influence of alcoholism on the suicide mortality.* 845

*Indicates an abstract.
†Indicates a review.

——, ——, at the Cook County Hospital.* 844
——, ——, in state hospitals, the problem of,* 844
——, ——, the occurrence of polyneuritis and abnormal pupillary reactions in, 669
——, ——, what solution for the problem of,* 845
——, experimental, new researches on,* 836
——, general pathology and some special complications of,* 838
—— in the history of criminals, the incidence and significance of,* 846
—— —— —— rural environment.* 227
—— —— two Central American cultures, the role of,* 234
——, recent progress in the study of,* 623
——, —— statistics on,* 846
——: some contemporary opinions.* 425
——, —— cultural factors in the etiology of, 464
——, —— mental mechanisms in,* 842
——, symptoms of,* 616
——, the army and the problem of,* 230
——, —— folklore of,* 849
——, —— general practitioner and,* 423
——, —— problem of,* 425
——, —— psychogenesis of, 277
——, vitamin deficiencies and liver cirrhosis in, Part IV. The Wernicke syndrome. Part V. Nicotinic acid deficiency encephalopathy. Part VI. Encephalopathies with possible nutritional involvements. 73
Part VII. Cirrhosis of the liver. 544
Alterations in respiration caused by alcohol. 641
Amphetamine sulfate and allied drugs on the alcohol level of the blood, effect of,* 417
—— sulfate-ethyl alcohol antagonism in the rabbit.* 832
—— (benzedrine) sulfate as an adjuvant in the treatment of alcoholism, further report on the use of,* 422
Amyl nitrite in curing tobacco-alcohol amblyopia, use of,* 225
Antialcoholic measures in Germany, a compilation of,* 847
Anxiety and its treatment: with special reference to alcoholism.† 427
Automatic apparatus for the indirect determination of the concentration of alcohol in the blood, a portable, 57
Automobile driving, alcohol and,* 231
—— driver, alcohol and the: a symposium.* 232
—— drivers, some problems confronting the physician in the examination of,* 613
Benzedrine, coramine, metrazol and picrotoxin, on body temperature and gaseous metabolism in rabbits depressed by alcohol, the effects of,* 417
Blood, a portable apparatus for the indirect determination of the concentration of alcohol in the, 57
—— alcohol concentration, faulty, due to ingestion of fruit and fruit juices.* 833
—— —— determination by the Widmark method, on the use of various disinfectants in,* 833
—— —— tests in motoring offenses; New York State statutory regulations.* 847
—— specimens for alcohol analysis, taking and preserving,* 415
—— —— taken for alcohol determination, a study of preserved,* 614
—— sugar and liver glycogen, factors influencing the effects of alcohol on, 263
—— test and traffic safety.* 613
Brain and spinal cord of chronic alcoholic patients, neuropathological findings in the, 260
Breath alcohol, a new method for the determination of,* 415
Cardiac failure, primary, the concentration of alcohol in the blood causing,* 608
Case records of the Massachusetts General Hospital; Cabot case No. 27361.* 617
Cause or effect?* 846

*Indicates an abstract.
†Indicates a review.

Cell membrane, studies on the effect of alcohol on the permeability of the,* 223
Central nervous system, "adaptation" of the, to varying concentrations of alcohol in the blood. 35
—— —— ——, the effect of alcohol on the,* 611
Cerebrospinal fluid in delirium tremens, the,* 614
—— —— total protein in the alcoholic psychopathies, the,* 224
Chemical methods for determining the alcohol content of body fluids and tissues with their physiological and medicolegal significance, a critical survey of various, 512
Chronic alcoholic as a neurotic and a dreamer, the,* 617
—— alcoholism: a psychological survey. 12
Cirrhosis, alcoholic, excretion of porphyrin in the urine in, and after episodes of hepatic coma.* 614
—— of the liver, on Laennec's,* 838
—— —— —— ——. Part VII. Vitamin deficiencies and liver cirrhosis in alcoholism. 544
—— —— —— ——, relation of liver function to, and to alcoholism.* 421
Classics of the alcohol literature. 177, 391, 584, 804
Coma, laboratory aids in the differential diagnosis of,* 227
Conditioned reflex therapy of chronic alcoholism. IV. A preliminary report on the value of reinforcement. 505
—— reflexes, influence of alcohol on,* 610
Consumption of alcoholic beverages in Switzerland from 1933–1938, the,* 229
Crime, alcoholism and, 686
Cultural factors in the etiology of alcoholism, some, 464
Current literature. 223, 415, 608, 831
Delirium tremens, convulsive seizures in,* 422
—— ——, Dr. Thomas Sutton's description of, 177
—— ——, on the pathogenesis and clinic of,* 618
Determination, alcohol, a study of preserved blood specimens taken for,* 614
——, blood alcohol, by the Widmark method, on the use of various disinfectants in,* 833
——, indirect, of the concentration of alcohol in the blood, a portable automatic apparatus for the, 57
—— of breath alcohol, a new method for the,* 415
Determining the alcohol content of body fluids and tissues with their physiological and medicolegal significance, a critical survey of various chemical methods for, 512
—— —— concentration of alcohol in expired air as a medicolegal test, the perchlorate method for,* 832
Diuresis from alcohol and its influence on the elimination of alcohol in the urine.* 608
Drinkers, observations on the handling of problem,* 840
Drug and alcohol addiction, some suggestions in the control and management of,* 848
Drunken drivers in Cincinnati, report and recommendations of a committee of the Academy of Medicine of Cincinnati with respect to procedure for the detection and conviction of,* 231
—— ——, four hundred,* 835
Drunkenness and alcohol concentration in the blood.* 232
—— —— divorce. 592
—— —— the war.* 229
——, artificial dentures as evidence of,* 849
—— as a criminal offense.* 622
——, tests for,* 418
Effect of alcohol on mental activity, the, 479
Effect of heat, cold, fatigue and alcohol on resistance of mice to human influenza virus.* 832
Electroencephalographic studies in organic psychoses.* 839
Encephalopathia alcoholica; an evaluation of vitamin therapy.* 837

*Indicates an abstract.

Encephalopathies with possible nutritional involvements, Part VI. Vitamin deficiencies and liver cirrhosis in alcoholism. 92
Encephalopathy, alcoholic, in men and fish-diet-diseases in foxes and fishes.* 836
Epilepsy, alcohol and, 1
Epileptiform episodes and epileptic episodes, alcoholic, 232
Factors influencing the effects of alcohol on blood sugar and liver glycogen. 263
Federal and interstate regulations of alcoholic beverages. 816
Gastric mucosa of chronic alcoholic addicts, the,* 616
Gastritis, chronic alcoholic,* 835
Heart, the effect of the abuse of alcohol on the electrical activity of the,* 223
Hemolytic effects of ethyl and caprylic alcohol.* 223
Hepatitis, acute, of alcoholism; a clinical and laboratory study.* 615
Hepatopathy, chronic, clinical study of,* 838
Homicide, intoxication in mitigation of, 396
Hypoglycemia, spontaneous, in "smoke" drinkers.* 615
Inebriates, scientific views on the spontaneous combustion of, 804
Inebriety: a classification. 677
——, a document of the reformation period on: Sebastian Franck's "On the horrible vice of drunkenness," etc. 391
——, the study and cure of,* 840
Influence of alcohol on the emptying time of the stomach and the absorption of glucose. 271
Influenza virus, human, effect of heat, cold, fatigue and alcohol on resistance of mice to,* 832
Intoxication, acute alcoholic,* 418
——, chemical evidence of,* 613
—— in mitigation of homicide. 396
——, relation of alcohol concentration to,* 833
Kidney and liver, contribution to the study of methods of functional exploration of the, particularly among alcoholics.* 421
Lay Supplements, announcement of, 214, 406
Liver, contribution to the study of methods of functional exploration of the kidney and, particularly among alcoholics.* 421
—— function, relation of, to cirrhosis of the liver and alcoholism.* 421
—— glycogen, factors influencing the effects of alcohol on blood sugar and, 263
Lung air, the alcohol of the, as an index of alcohol in the blood.* 609
Manic-depressive psychosis to alcohol, response of a,* 423
Marchiafava's disease. 486
Medicolegal notes. 197, 396, 592, 816
Mental activity, the effect of alcohol on, 479
—— disease, alcoholism and, 293
—— —— and social welfare.† 426
—— disorder, the effect of alcohol on patients with,* 423
—— disorders, alcoholic, 312
—— hygiene of alcoholism as a psychoanalytic problem.* 618
Myocardium in alcoholic intoxication, on the hypodynamics of the,* 420
Neuritis, alcoholic, apparently not due to deficiency of vitamin B_1.* 617
Neuropathological findings in the brain and spinal cord of chronic alcoholic patients. 260
Neuroses and alcoholism among the Jews.* 617
Nicotinic acid deficiency encephalopathy, Part V. Vitamin deficiencies and liver cirrhosis in alcoholism. 85
—— —— treatment of acute and chronic alcoholic intoxication.* 225
Normo-Mastix reaction, the influence of lowered alcohol concentrations on the results of the,* 835
Nutritional deficiency, dysphagia and,* 617

*Indicates an abstract.
†Indicates a review.

Optic nerve, deep cupping of the nerve head in atrophy of, due to methyl alcohol; complicated by amblyopia due to tobacco and ethyl alcohol.* 616
—— ——, selective suppression with ethyl alcohol of inhibition in the, and of the negative component P III of the electroretinogram.* 610
Oxidation of some substituted alcohols by rat liver.* 609
Pathological-anatomical damage through alcohol found in autopsy material of the district hospital of Lucerne 1919–1939.* 225
Penal and correctional aspects of the alcohol problem. 241
Peripheral nerves in cases of nutritional deficiency, the,* 418
Personality of the alcoholic.* 842
Polyneuritic syndrome, ataxia and pyramidal syndrome in the course of an alcoholic mental confusion.* 225
Polyneuritis, alcoholic,* 226
—— ——. An evaluation of the treatment at the Boston City Hospital from 1920 through 1938.* 419
—— ——, the treatment of, with electrotherapy.* 419
—— and abnormal pupillary reactions in chronic alcoholism, the occurrence of, 669
Proof gallon, the: a federal tax strait jacket. 46
Psychiatric resultants of alcoholism: alcoholism and mental disease. 293
Psychogenesis of alcoholism, the, 277
Psychologic and economic influence of alcohol, the,* 621
Psychological survey, a: chronic alcoholism. 12
Psychology of the alcoholic patient, the individual,* 617
Psychosis, alcoholic pellagra,* 226
